PECAN TREES

At Prices Any One Can Pay

My sale of trees so far this year has been about the average. My stock of trees at the beginning of the season was the largest I ever grew. I do not want to carry these over another season. In order to sell them, am making inducements in prices greater than I have ever before offered, and probably cheaper than first-class trees can ever be purchased again.

Until the close of the present transplanting season in March, the following prices are in effect:

Two to three feet.....	25c.
Three to four feet.....	30c.
Four to five feet.....	45c.
Five to six feet.....	60c.
Six to eight feet.....	75c.

These prices are net cash with order. No order filled for less than ten trees. If you don't want this many, get neighbors to join with you in making up the number.

EXPRESS PAID---On orders amounting to \$10.00 or more, express will be paid to all points east of the Mississippi river.

QUALITY---The grade of these trees is the best. They are not picked over, and will come up to the specifications given in **SOME REASONS**, which is inclosed.

TIME TO SET---Trees may be safely transplanted up to March 1st. I have set them successfully as late as March 15.

FRESHLY DUG---All trees are freshly dug after order is received. Much depends upon this. The failure of trees to live is attributable in a large extent to the neglect of this precaution. Trees are carefully packed in sphagnum moss, and are promptly forwarded by express.

SHIPMENT---Shipment of trees can usually be made in from one to three days after receipt of order, the time depending upon the prevailing weather and the number of orders ahead for shipment.

VARIETIES---The following varieties are offered:

Frotscher,	Stuart,	Schley,	Van Deman,
Waukeenah,	Moore,	Pabst,	Nelson,
Teche,	Mantura.		

SELECTION OF VARIETIES---If you are in doubt as to what varieties are best adapted to your section, I shall be glad to assist you in the selection. If this is left to me, I shall send only such as are adapted to the section where they are to be set.

SUBSTITUTION---No substitution of sizes or varieties will be made unless authorized; though it is suggested that this authority be given, with the assurance that no substitution will be made that I would not be satisfied to set in my own groves. If in doubt as to the varieties, then state number wanted and I will give you a good selection.

REASON FOR SETTING NOW---(1) The sooner you begin the more quickly will you gather the reward of your forethought. (2) Unless all indications mislead, you will never get first-class trees cheaper, and in all likelihood you will have to pay more.

DIRECTIONS FOR TRANSPLANTING accompany each shipment. If these are carefully followed few, if any, trees need to be lost in transplanting.

INFORMATION---If you are in need of information, my twenty-seven years experience in pecan growing are at your service. Write me.

J. B. WIGHT,

February 10, 1916.

Cairo, Georgia.

Handwritten text at the top of the page, possibly a title or header, which is mostly illegible due to fading.

Main body of handwritten text, consisting of several paragraphs. The text is extremely faded and difficult to read, but appears to be a continuous narrative or report.
